Manual pre-preparation of Swep mops

Manual pre-preparation of Sweb mops

- Fold as many mops as you need and place them in a pile in same direction. In addition to the mops, you will need a measuring jug and a clean box suitable for preparation.

- Place the mops into the box front edge first so that the finger loop faces upwards. Measure the correct amount of cleaning solution into the jug.

- Pour the measured solution into the box. The mops will become evenly damp in a few minutes. The mops are now ready for use.

How to use the special task Sweb mops

Mop	Size		
 <p>Sweb Duo Interior pad</p>	35 cm		<p>Recommendation is to damp the mop with springle bottle or spray bottle. Spray on surface or directly on the mop. The mop works best with slightly damped. One spray = 2m² area cleaning. Other side of the mop can be used to finalize the cleaning result on surface.</p>
 <p>Sweb Duo Wall & Interior handmop</p>			<p>Duo Hand mop can be used for two steps cleaning. Washing method: Scrub dirt away with scrubbing side and finalize the cleaning result with microfibre side. Dry cleaning / damp cleaning: Prepare the microfibre side with 0,5-1 dl according to dirt amount.</p>
 <p>Sweb Single Safety</p>	35 cm 50 cm		<p>Washing / wet method: Spread/apply the needed amount of cleaning solution to the cleaning area. Around 2-4m² size of area at a time. Scrub the area / remove the dirt. Rinse the cleaned area and dry it.</p>
 <p>Sweb Duo SafetyPlus</p>	35 cm 50 cm		<p>Duo SafetyPlus mops can be used in two steps cleaning method. Washing and removing method / cleaning method: Dirt is removed with the scrubbing side and finished with the microfibre side. Dry method / moist method: Loose dirt like hair is removed with dry scrubbing side and finished with the microfibre side and moist method.</p>
 <p>Sweb Wax mop</p>	50 cm		<p>Make sure your wax mops are clean. A new wax mop should always be washed before it's first used to wax the floor. Pre-prepare the clean wax mop with water (0,5-1 dl) before you use it to spread wax. Let the moisture set for a few minutes prior to using the mop.</p>
 <p>Sweb MultiDuster Maxi</p>	60 cm		<p>The MultiDuster is used to wipe upper dust or hard to reach narrow areas. Damp: Preprepare in accordance with the 0,5 dl method.</p>
 <p>Sweb Duo MicroOne</p>	50 cm		<p>Open the plastic bag of mops (15 pcs.) and place it in a lidded Vileda Professional mop box. Pull the edges of the plastic bag over the edges of the mop box. Pour the solution evenly over all 15 mops, 750 ml for damp method or 1500 ml for moist method. Wait for approx. 10-15 minutes so that the moisture sets evenly in the mops.</p>
